**I am an incoming student at the School of Medical and Pharmaceutical Science: when do I have to submit my learning agreement?**

You should send your learning agreement when your home University sends us your application form.

**Where can I find a list with the available courses in English?**

The list of courses and subjects taught in foreign languages is available [here](#)

**Can I take courses from different Schools/Didactic structures?**

Students may exceptionally choose courses from Schools other than their own, but the learning agreement has to be approved by responsible professors of all involved didactic structures.

**Can I include language courses organized by University of Genoa in my learning agreement?**

First of all you should check with your home university whether they will recognize the language course in your study programme.

If your home University recognizes it, you have to include it in your learning agreement, follow the course and take the final test.

**What is the minimum and maximum number of credits per semester/year?**

Each semester corresponds to 30 credits, while an academic year corresponds to 60 credits. The competent Erasmus Office will give you information about School/Department requirements.

**Can I take up modules of a different level (master – bachelor)?**

It depends on the organization of each didactic structure. You should contact the competent Erasmus Office:
